SUMMARY

Immediate Joiner | Flutter & Web Developer with experience building scalable mobile and web applications for the pharmaceutical and service industries. Proven track record of publishing 4+ production apps to Play Store/App Store. Recently returned to India and available for a full-time role; specialized in Flutter, Next.js 14, and Bluetooth Hardware integration.

EXPERIENCE

Junior Flutter Developer

Bonum Edesigns LLP

July 2025 – January 2026

Malad, Maharashtra

- Developed and maintained a responsive business website (**Colors India**), improving UI consistency and adding dynamic content
- Ensured cross-browser compatibility, mobile responsiveness, and performance optimization.
- Built and maintained Flutter applications under the **Onetwo9** project, integrating REST APIs and collaborating with UI/UX designers
- Role concluded due to international relocation; Back in India and **currently available** for immediate joining.

Software Developer Associate

Sai Ashirwad Informatia

May 2024 – March 2025

Mira-Bhayandar, Maharashtra

- Delivered 3 Flutter mobile apps (95%+ crash-free) and 2 Flutter PWA apps for pharma clients, increasing engagement by 60%.
- Integrated REST APIs, handled complex JSON parsing, and implemented offline caching using Hive.
- Resolved 15+ staging and pre-production issues through testing, monitoring, and performance optimization.

SKILLS

- Languages** — Dart, JavaScript (ES6+), TypeScript, HTML5, CSS3
- Mobile Development** — Flutter (Android & iOS), Flutter PWA
- State Management** - Provider, GetX, BLoC
- API & Networking** — RESTful APIs, JSON Parsing, HTTP Client (Dio/Http), Postman
- Architecture & Tools** — MVC, MVVM, Git, GitHub, CI/CD (GitHub Actions), Vercel
- UI/UX & Animation** — Material Design, Cupertino, Lottie, Rive, Adobe XD/Figma (Basics)
- Web Development** — Next.js, Tailwind CSS, ReactJS, Responsive Design
- Backend & Database** — Node.js, Firebase (Auth, Firestore, Cloud Messaging), MySQL, Hive, Shared Preferences

PROJECTS

- Hscore - Health Score System** [Project Link](#)
 - Developed a **Production ready medical app** for specialized medical calculation engine with **15+ complex clinical scales** across Gastro, Oncology, and Cardiology departments.
 - Implemented low-latency **Bluetooth printer integration** for real-time scorecard generation and physical report printing in clinical environments.
 - Optimized data accessibility by architecting a custom **PDF generation and screenshot sharing module**, improving patient-doctor report workflow.
- Playwise Kids - Educational Game App** [Project Link](#)
 - Engineered highly interactive, animated educational games using ****Flutter and Rive****, focusing on high-frame-rate performance for child-friendly UX.
 - Successfully integrated **Google AdMob** for scalable app monetization while maintaining a seamless, non-intrusive user experience.
 - Managed the end-to-end publishing lifecycle on the **Google Play Store**, ensuring compliance with educational and privacy guidelines.
- HJMR Industries - Website** [Project Link](#)
 - Developed a high-performance industrial website using **Next.js 14** and **Tailwind CSS**, focusing on SEO and mobile-first responsiveness.
 - Engineered a server-side lead capture system using **Google Sheets API** for streamlined inquiry management without a traditional database.
 - Implemented dynamic product detail pages and customized **WhatsApp API** integrations to facilitate direct bulk quote requests for B2B clients.
- Colors India - Business Website** [Project Link](#)
 - Spearheaded the **mobile-first UI/UX overhaul**, ensuring seamless responsiveness and cross-browser performance for a high-traffic business site.
 - Managed the end-to-end **deployment strategy and staging environment**, collaborating on a PHP-based architecture to ensure 100% uptime.
 - Conducted exhaustive **comprehensive testing and QA**, resolving critical layout and functional bottlenecks prior to the production launch.

ADDITIONAL SKILLS

- **Deployment** — Google Play Store, Apple App Store
- **Version Control & CI/CD** — Git, GitHub, GitHub Actions
- **Design Tools** — Figma, Adobe XD
- **Other** — OOP, Responsive Design, Flutter Flavorizr, Thermal/Bluetooth Printer Integration

EDUCATION

- | | |
|--|--------------------------------|
| • Bachelor of Science - Computer Science
Mumbai University | 2021 – 2024
CGPA: 8.45/10.0 |
| • Higher Secondary Certificate
Maharashtra Board | 2019 – 2021
86.00% |

ACHIEVEMENTS

- Published 4 Flutter applications on Google Play Store & Apple App Store.
- Integrated Lottie & Rive animations, improving engagement by 35%.
- Implemented offline caching, reducing server dependency by 45%.
- Completed multiple marathon events including VVMC (2023, 2024).
